AII,

The write-up is about as brief as I can make it at this point. Let me know if you think this is out of proportion with the comment or if it opens too many issues.

Have a good week off, Allen! Karen

### Hi Allen,

Sorry not to reply yesterday, several fire drills besides the Ramazzini effort going on.

At this point it would be great if you have time to draft something. Thanks, Karen

Karen,

Thanks for putting this spread sheet together. (b) (5)

With regard to writing up the description of this analysis, did you want to provide a rough draft, or should I draft it after your clarification of the above point?

Thanks again for taking this on, I appreciate it.

### Hi Allen,

I had some formatting issues with this--it keeps losing formatting I've saved several times, mostly centering table entries. I also just noticed that the footnotes in the last table are mislabeled; somehow the footnotes start with b rather than a. Perhaps the technical editor can fix that.

Several tables work best in landscape mode. I hope this can be retained. I'd also like to see the ToxReview after it comes back from technical editing before it is finalized, just to be sure all of the formats still work.

Thanks,

Karen

## David,

I'm pretty sure that he didn't, but did Dale Hattis provide any spreadsheets with his final comments? He refers to some spreadsheets that he'll send in with the final comments, but I don't remember you forwarding any (meaning he didn't send them in the first place).

Thanks,

Allen

Subject: Points for Consideration regarding the Draft IRIS Assessment of Chloroprene

Dear Mr. Davis:

On behalf of DuPont Performance Elastomers, I am pleased to submit comments that may clarify some of the issues discussed at the External Panel Peer Review of the Draft IRIS Assessment of Chloroprene. We offer this as part of the written record, since we were not asked to comment during the Peer Review. Please accept these comments as part of our effort to aid EPA in its development of a scientifically sound and complete risk assessment for chloroprene.

### Thank you.

### Allen,

Sorry not to have gotten back to you sooner. We could talk later today (am going to sit in on part of the Agency Review mtg) or tomorrow (no mtgs except the Science Policy discussion). I'm off Friday, then Monday is completely open. I'm in from about 8:30 to 6.

Would you be able send a pdf of Rob's PBPK paper? I couldn't get one on-line. Thanks,

Karen

AII,

I've gone through the reviewer's specific comments and made any suggested editorial changes that they suggested as well as added their more substantive suggestions as comments in the document. I know it's a pain to find exactly where in a document a comment refers sometimes, so I hope this helps.

### All,

Attached below are the notes that I took at the EPR meeting (disjointed and stream-of-consciousness as they may be) to supplement the comments that we received from the reviewers and DuPont. I'd like to get in touch with each of you individually to begin to talk about your interpretations of the reviewer's (and DuPont's) comments and what work needs to be done to appropriately address their concerns. Maybe we can discuss your respective sections sometime next week? Respond back with times that are good for you. In the meantime, I'm going to go ahead this week and make all of the editorial changes that were suggested.

David Bottimore of Versar said we could expect the final EPR document around the end of the month, but I think that the document will look much the same as the draft comments I sent out earlier (and am sending today with my notes added). I believe that I sent you DuPont's comments in an earlier email, but if I omitted you let me know and I'll send them to you.

Thanks for all of your hard work up to this point,

Allen

RE: Docket ID No. EPA-HQ-ORD-2009-0217

Draft Toxicological Review of Chloroprene (September 2009) Comments on Behalf of DuPont Performance Elastomers

Dear Docket Control Officer:

On behalf of DuPont Performance Elastomers (DPE), I am pleased to submit comments prepared both by and for DPE on the Draft Toxicological Review of Chloroprene.

Per letter dated November 25, 2009 from EPA (Dr. Abdel Kadry) to DuPont (Andrea Malinowski), EPA has advised that comments submitted by December 17<sup>th</sup> will be provided to the Peer Review Panel members two weeks before the meeting. The Peer Review Panel meeting is scheduled for January 6, 2009. It is respectfully requested that the Peer Review Panel members be provided with the attached comments as soon as practicable due to the upcoming holidays, but no later than December 23<sup>rd</sup>.

DPE also contacted Versar to offer courtesy paper copies of the comments. Versar indicated it would be helpful to receive them and that six (6) copies would be required. Accordingly, to aid in timely distribution of the comments to the Peer Review Panel and as a courtesy, six (6) paper copies and six (6) text-searchable CDs of DPE's comments are being provided today by overnight mail to Versar. Additional copies will be provided to Versar, upon request, if more are needed.

Finally, if EPA desires paper copies or CDs of the comments, please contact me directly by phone or e-mail and we will promptly handle the request.

Thank you.

Subject: FRN: Chloroprene Tox Review Workshop

Hello, Everyone. Today the National Center for Environmental Assessment published a Federal Register notice announcing the peer-review workshop for the Toxicological Review of Chloroprene: In Support of the Summary Information in the Integrated Risk Information System (IRIS). The workshop will occur on January 6, 2010.

Linda Bailey-Becht Info. Mgmt. Team/Nat'l. Center for Environmental Assessment/ORD (mail code 8601P) US EPA, 1200 Pennsylvania Ave., N.W., Washington, DC 20460 Phone: 703-347-8517 / fax: 703-347-8691/ e-mail: bailey-becht.linda@epa.gov

AII,

Just wanted to forward everyone the good news below. Chloroprene was submitted, and will be on the agenda for the 8/25 Interagency Consulation Meeting.

Since the documents were deleted in the previous emails, I've attached the updated charge and tox review as I have them. (b) (5)

If anyone has any questions, please don't hesitate to get in touch with me.

Thanks everyone for your hard work!

Allen

Subject: New information about interagency science meetings

#### Dear Colleagues:

This email is to provide information on upcoming interagency science meetings, the distribution of IRIS assessments for review, and procedures for moving forward with the 15 assessments that were in interagency review when the new IRIS process was announced on May 21.

Note that documents for reviewing the 1,1,2,2-tetrachloroethane assessment will be sent later today.

Thanks to everyone who has helped with our mailing list.

AII,

Just wanted to send out an update on where chloroprene currently stands.

In other news, the external peer review contract has been awarded to Versar. Jeff and I are waiting for Versar to get in touch with us to start the ball rolling on the task order. Again, I will keep you informed as information becomes available.

Thanks to everyone for all of your help in getting the document where it stands currently (b) (5)

Again, thanks

Allen

Karen,

#### Sounds good.

In keeping with the schedule we laid out, do you think you can provide responses to OMB's comments and make the necessary edits to the document by the end of the week? We're up against a pretty firm deadline in getting the revised IAR draft back to OMB by the 13th.

Thanks for all your hard work,

Allen

Jamie.

The schedule you have laid out to provide support in completing the IAR response to comments looks fine. Allen and Michael have completed their responses and revisions to the Tox Review. There ready to go.

With regards to contributions from others not on the team, I think it is fine as long as we submit the revised Tox review and disposition of comments back to OMB by May 13th. If there are any issues raised on the assessment it needs to happen the week of May 4th. Belinda may want to weigh in on additional epi support.

If we need to discuss this further I would be happy to meet next Thursday.

Subject: Chloroprene charge questions

Hi Lynn,
(b) (5)

I'm trying to attend the NAS Comp Tox workshop today and tomorrow, so I'll be in and out. I mostly want

to hear the panel discussions, which are today 3-5:15, and tomorrow 8:30-12.

Thanks, Karen
